Career objective

Enthusiastic Developer eager to contribute to team success through hard work, attention to detail, and excellent organizational skills.

Motivated to learn, grow and excel in mastering new skills, with a proven ability to adapt in both self-starting and collaborative environments while staying focused on achieving high-quality results under strict deadlines.

Looking for a software developer job, where I can apply expertise in developing and designing front-end web architecture and gain more experinces.

Work Experience

2023/06 – present
Beirut, Lebanon

Front-end Developer
Memac Ogilvy 🔗
- Developed web pages using semantic HTML5, CSS3, Tailwind CSS, Bootstrap 5 and JS, ensuring accessibility, optimized performance, and clean, maintainable code.
- Collaborated with creative and marketing teams to design and develop interactive and engaging HTML5 ads and banners using Google Web Designer, significantly enhancing ad performance and user experience.
- Developed responsive HTML5 emails, ensuring cross-client compatibility using Litmus and Mailchimp for testing across major email clients including Outlook, Gmail, and Apple Mail.
- Worked closely with cross-functional teams both on-site and remotely to conduct detailed code reviews, coding standards, and optimization for performance and maintainability.
